

PRO-STOP

Full 5 Axis Milling Stop

The Pro-Stop is the ultimate vise stop for quick and easy setups for shops of all sizes.

Designed and engineered to last, the body is made from 6061-T6 and pivot components are made from stainless steel to prevent rusting and insure accuracy. Friction O-rings provide smooth, precise adjustments and a spring loaded Tee-nut helps aide with installation.

5-Axis adjustment moves the stop for your job requirements. 1/4" stop rod can be modified, replaced or extended with longer piece of bar stock.

- Locking lever can be positioned 360° to avoid interference.
- T-nuts fit 5/8" table studs. Unit is anodized red with a black cast aluminum handle.

Model # PS-5.....\$95.95 Ea.
Made in U.S.A.
